Milady for War; Silk Hose Banned

Madame and Mademoiselle Will "Nevaire, Nevair" Wear Cotton.

(By Universal Service Staff Correspondent.)
(Special Radio Dispatch.)
PARIS, March 23. Forty million limbs will become stockingless in France, as a result of the ban on importation of silk stockings, decided upon by the government as a means to improve the exchange rate.

Twenty million women who have no large stock of silk hosiery are praying for quick restoration of trade with Germany, hoping the exchange rate on the mark, so favorable to France in some respects, will induce Finance Minister Francis Poincaré to take drastic action, allowing them to obtain the coveted silk stockings.

No French woman who can afford silk is willing to appear in the fashionable knee-length skirts with her ankles covered with heavy cotton. Last year, instead of exporting silk hosiery, France was obliged to import from the United States 20,000,000 pairs, valued at \$500,000,000.

Cressy, Colonel Cressy has just returned from four years' service in the royal Serbian army and has been four times decorated for distinguished service.

MR. DODSON WARNS USERS OF CALOMEL.
Says Drug Acts Like Dynamite on Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salfate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

AMUSEMENTS

"Fair and Warmer."

Within six weeks after the spectacular first night of "Fair and Warmer," at the Harris Theater in New York.

Avery Hopwood's newest piece was known for a record-breaking success, with flimsy power to make all kinds of people laugh and demands for it began to roll into the offices of Spaulding & Co., its sponsors. Its appearance at the Strand on Friday and Saturday and Saturday matinee is an answer to this demand.

The New York reviewers, on the night of its first appearance, used up all their adjectives in praise of its hilarity. Later they called on their verbal stores for praise of its continuous month after month to absolutely capacity houses. Still later, they marshaled their vocabularies to say that "Fair and Warmer" had become a classic of farce as "Within the Law" had been of melodrama. Its success had actually and literally made a record. It will be presented here by an excellent cast of actors.

The Aftermath of Flu

This is No. 1 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Your doctor will impress upon you that following recovery from the active stage of influenza, there often remains an inflamed, congested condition of the air passages—throat, larynx, bronchial tubes and lungs.

Frequently the cough hangs on—soreness of the chest persists—you take cold easily and there may be obstinate catarrh. This condition is slow to clear up and if neglected may favor the development of pneumonia, or later on, serious disease of the lungs.

Such cases should continue under the care of their physician—should exercise moderately in the open air—eat plenty of wholesome food—avoid overwork and sudden chills.

Nightly applications of Vick's Vapo-Rub may help nature to complete the process of repair. Because Vicks acts locally by stimulation thru the skin to

draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 231 Broad Street, Greensboro, N. C.
